

☀️ Characters x Interplay of Light and Shadow

Tents and characters glow under soft light, with four colors shifting to match your daily mood:

- Warm white light

(night lamp / relaxation)

- Four-color gradient (green, blue, orange, white)
- Switchable steady / breathing glow

💧 Waterless diffusion x Mood Shifting

Pure scents with four fragrance options to match your mood:

- Orange Bloom | Afternoon sunlight x garden breeze
- Forest Whispers | Quiet

night x natural meditation

- Mountain Shadows | Smoky woods x inner reflection
- Morning Adventure | Citrus freshness x revitalizing energy

🎧 Calm x White Noise Companionship

No connectivity required: built-in natural soundscapes with a soft volume that enrich both space and mind, enhancing focus and relaxation.

- Forest (insects and wind)
- River (gentle water flow)
- Fireplace (crackling fire)
- Mute (completely silent)

The scent breathes, the light tells stories, and the sound heals — this is not just a diffuser; it's the miniature architect of your life.
